FINEZZA

PVC Plinth Profiles

Datasheet

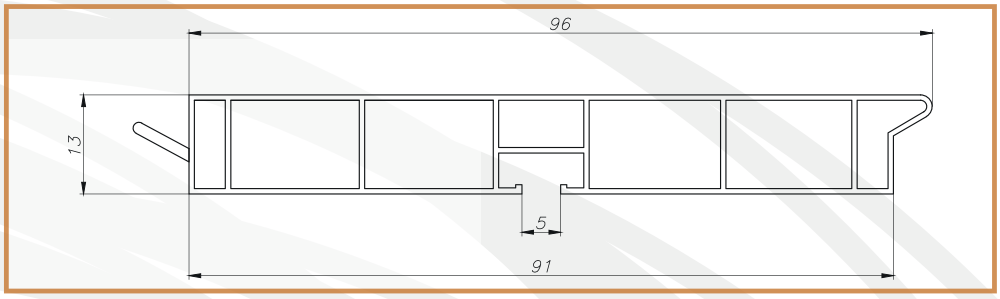

1. DESCRIPTION:

PVC plinth profile are decoration products that match with different kitchen styles. Manufactured in PVC and coated in aluminium and different PVC foils models are ideal for modern kitchens. Plinths are offered with stands and clips that make them easy to mount and install.

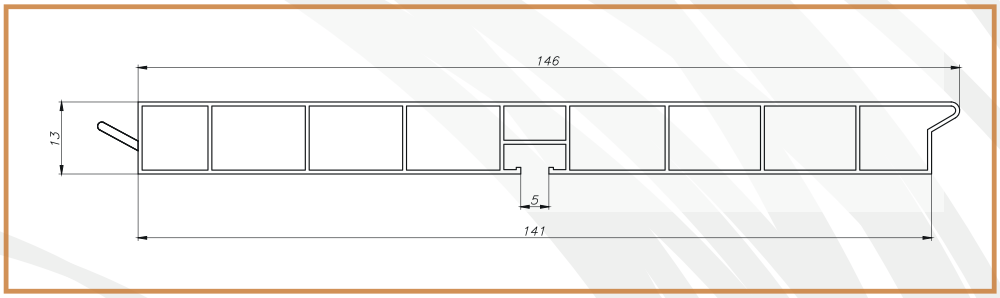

2. MODELS:

Available in 10 and 15 cm height with one- or two-channel options. The integrated flexible transparent bottom seal helps prevent moisture, dirt and liquids from entering beneath kitchen units.
